DISPERSAL SALE OF 'TURNANT' HERD (Est 2012)

On the instructions of Turnant Welsh Black LLP

FOREWORD

Turnant Welsh Blacks is a relatively recently produced herd of young pedigree Welsh Black cattle the oldest cow being just 7 years of age.

It is a suckler herd with concentration being placed primarily on the female blood lines. A decision was taken to acquire the original cattle from the renowned Castell herd located near Llandeilo, Carmarthenshire, the owners of which are Gareth and Jane Davies. Farmers familiar with the breed will know that Jane is currently President of the Welsh Black Cattle Society.

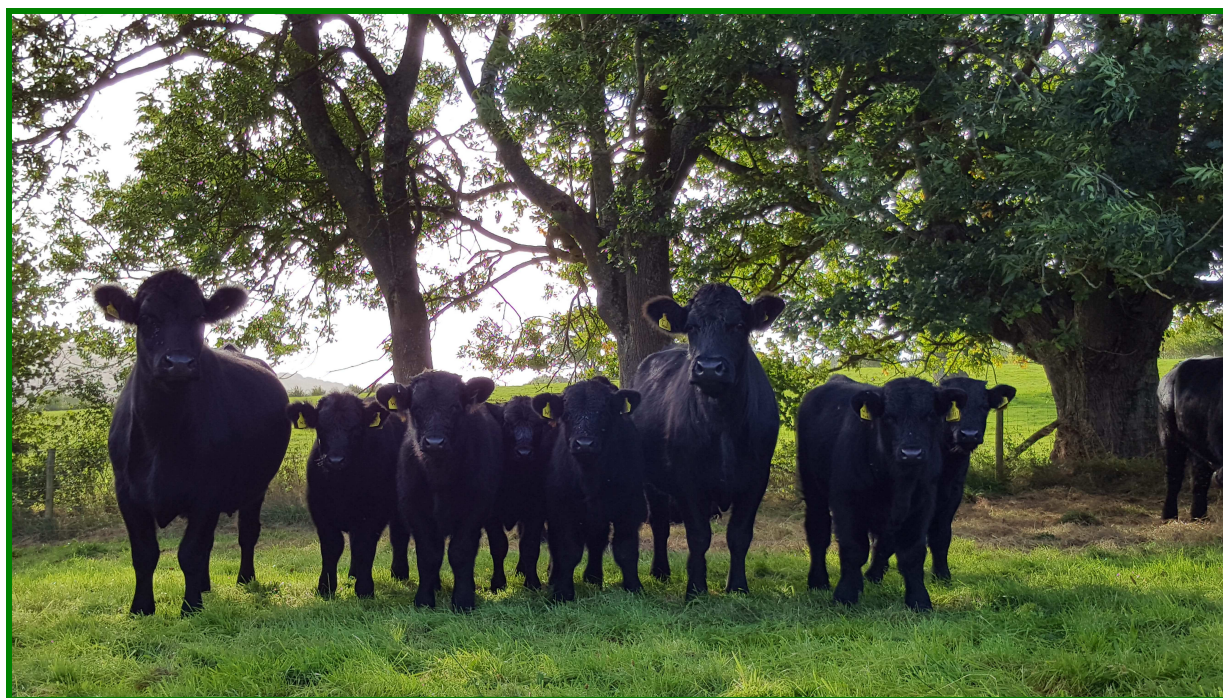

In forming Turnant Welsh Blacks 4 key female lines were selected from Castell: Seren, Fanny, Dolly & Meg. These are all traceable back to the origin of the Castell herd in 1946.

To grow the Turnant herd, semen was used by AI from the very successful bull, Tryfil Cawr, and as growth accelerated, Turnant acquired its own bull, Brysgaga Berwyn 11th, bred by Rowland Rees of the Brysgaga Ceredigion herd. This was acquired at the Dolgellau Winter Sale in January 2014 held under the auspices of the Society.

A year ago further investment was made by acquiring 8 maiden heifers from the Pantyrhuad herd. Most of these heifers were sired by Syfni Warrior 2nd, with Syfni being another much admired herd amongst Welsh Black breeders. These heifers are now in calf to Tryfil Cawr, with calving expected just before the date of the sale.

The cattle are bred and raised on the slopes of the Black Mountains near Longtown, Herefordshire in conditions verging on organic due to the farm having been accepted in The High Level Stewardship Scheme. They have been entirely grass fed with the farm's own silage and hay used through the winter. Much emphasis has been placed on bio-security and this is governed by Turnant's membership of The Premium Cattle Health Scheme. All on farm operations have been managed in accordance with health scheme rules specified in the technical document, Cattle Health Certification Standards (UK). Animals are vaccinated against BVD.

The Turnant Herd is being sold for a genuine reason following a change in policy.
