FOLLOWED BY A STORE SALE

Show: 10.00am | Sale: 11.00am

Auctioneers:

Monmouth Livestock Centre, Market Street Chambers, Abergavenny, Mon
Tel: 01873 852624

NOTICE

***All Cattle are sold in accordance with the Welsh Black Cattle Society's Auction Sale Rules (copy available in Auctioneers' Office) and the conditions of Sale for Dairy Store and Beef Breeding Cattle at Markets published by the Livestock Auctioneers' Market Committee for England and Wales. In the event of discrepancy of Welsh Black Cattle Society's Auction Sale Rules shall prevail.**

CATALOGUE ABBREVIATIONS

(Printed after the Herd Book number)

GRADING-UP APPENDIX

- F. – A Foundation Dam of unknown breeding and is registered in the grading-Up Appendix. No bull calves born to the female can be registered, but her heifer calves can be registered as First Grade Dams in the Grading-Up Appendix.
- F.G. – A First Grade Dam and registered in the grading-Up Appendix. No bull calves born to the female can be registered, but her heifer calves can be registered as Second Grade Dams in the Grading-Up Appendix.
- S.G. – A Second Grade Dam and registered in the grading-Up Appendix. No bull calves born to the female can be registered, but her heifer calves can be registered as full pedigree in the Herd Book.

POLLED REGISTER

Females

Polled Calves born to polled females can be entered in the Polled Register of the Herd Book.

- P.F.G.** – A Polled First Grade Dam, naturally polled and by either a pedigree horned Welsh Black Bull and a registered polled dam or by a registered polled Welsh Black Bull and out of any registered horned Welsh Black Female.
- P.S.G.** – A Polled Second Grade Dam, Naturally polled out of a Polled First Grade Dam and a registered polled Welsh Black Bull.
- P.T.G.** - A Polled Third Grade Dam naturally polled with no vestige of horns or scurs out of a polled Second Grade Dam by a 'Proven' Polled Welsh Black Bull.
- P.G.** - A Polled Graduate Dam, naturally polled with no vestige of horns or curs out of a Polled Third Grade Dam by a 'Proven' polled Welsh Black Bull.
- H.F.G.** – Horned heifer calves born to any grade of polled dams, or by polled sires may be accepted as Second Grade Dams in Grading-Up Appendix.

New Polled Ruling

- (PP)** – Pure Polled
- (IP)** – Impure Polled
- (UP)** – Unidentified Polled
- (HP)** – Horned Polled

Copies of the Rules relating to the Polled Register are available from the Secretary or from the Auctioneers.

(A.I.) – ARTIFICIAL INSEMINATION. Denotes bull which have been used for Artificial Insemination by any of the Cattle Breeding Companies.

BREEDING GUARANTEES

(a) All cows and heifers which are stated in the catalogue as having been served, or inseminated, not less than twelve weeks before the date of the Sale, or stated as having been running with a bull between dates (the latter of which is not less than twelve weeks before the date of the Sale) will be guaranteed to be in-calf to the service date, the date of insemination, or between dates and to the bull stated in the catalogue, unless alteration is announced at the time of Sale. In the event of any breach of warranty the purchaser must notify the auctioneers in writing, within the time prescribed in the auctioneer's sale rules, which in the case of cows and heifers proving not to be in-calf is 43 days.

All females served, inseminated, or running with the bull less than twelve (12) weeks from the date of Sale shall be described in the Catalogue as not being guaranteed in-calf.

FREEDOM FROM DISEASE

1) Vendors must declare their herd's risk level for Johne's disease.

2) Herds are classified for Johne's disease as:

Risk level 1 – Herds have had at least 3 clear annual herd tests.

Risk level 2 – Herds that have had one or two clear annual herd tests.

Risk level 3 – Herds that have had less than 3% reactors in their last herd test.

Risk level 4 – Herds that have had more than 3% reactors in their last herd test.

Risk level 5 – Herds that are either not testing for Johne's disease in an approved health scheme, or are not complying with the rules of such a scheme.

3) Members of a licensed cattle health scheme for Johne's disease are required to isolate and test animals purchased from herds at all risk levels other than risk level 1

4) A purchaser wishing to take advantage of section 22 of the Society's auction sale rules –

purchaser's rights in relation to vendor's warranty for Johne's disease and BVD – should ensure that samples are taken from cattle either prior to leaving the sale ground or within one week of the sale provided they are kept in appropriate isolation during that time.

BULL FERTILITY TESTING

The fertility examination should ideally be done within one month of the sale. Purchasers should note that the veterinary certificate relates to the fertility of the bull on the day of examination. If the interval between the examination and the sale is longer than one month, then the possibility that something could have adversely affected the fertility since the day of the examination is increased.

The veterinary certificate should be made available for inspection at the sale and the purchaser should be supplied with a copy.

LIST OF EXHIBITORS

RHESTR O ARDDANGOSWYR
